

Fiori User Interface

SAP SuccessFactors 

Fiori User Interface

Admin opt-in

Major Enhancement

What is it?

Upgrade via Upgrade Center “**Fiori User Experience 2016**” to use fiori styles on a set of pages throughout the SAP SuccessFactors suite. Customers will automatically receive future Fiori interface improvements. Opt-in details will be covered in the platform session; this session includes an overview of the Learning re-skinned pages and impacts.

Multi release effort!
Learning is targeting the majority of user and supervisor pages by 1H 2017 focusing on user first.

“Reskinning” includes user interface changes such as font type and size, colors, padding, corner styling and, in some cases, icons.

Why is it important?

Provide a more modern and consistent user experience across SAP.

Prerequisites

– Integration with platform.

Fiori User Interface: Impact Areas

- Home and My Employees
- Item Record
- Scheduled Offering and Registration Flow
- Content Structure Pages
- Task Checklist and Manage Observers
- Curriculum Status and Curriculum Record
- Program Agenda
- Learning History
- Search Activities by Competency (CDP)

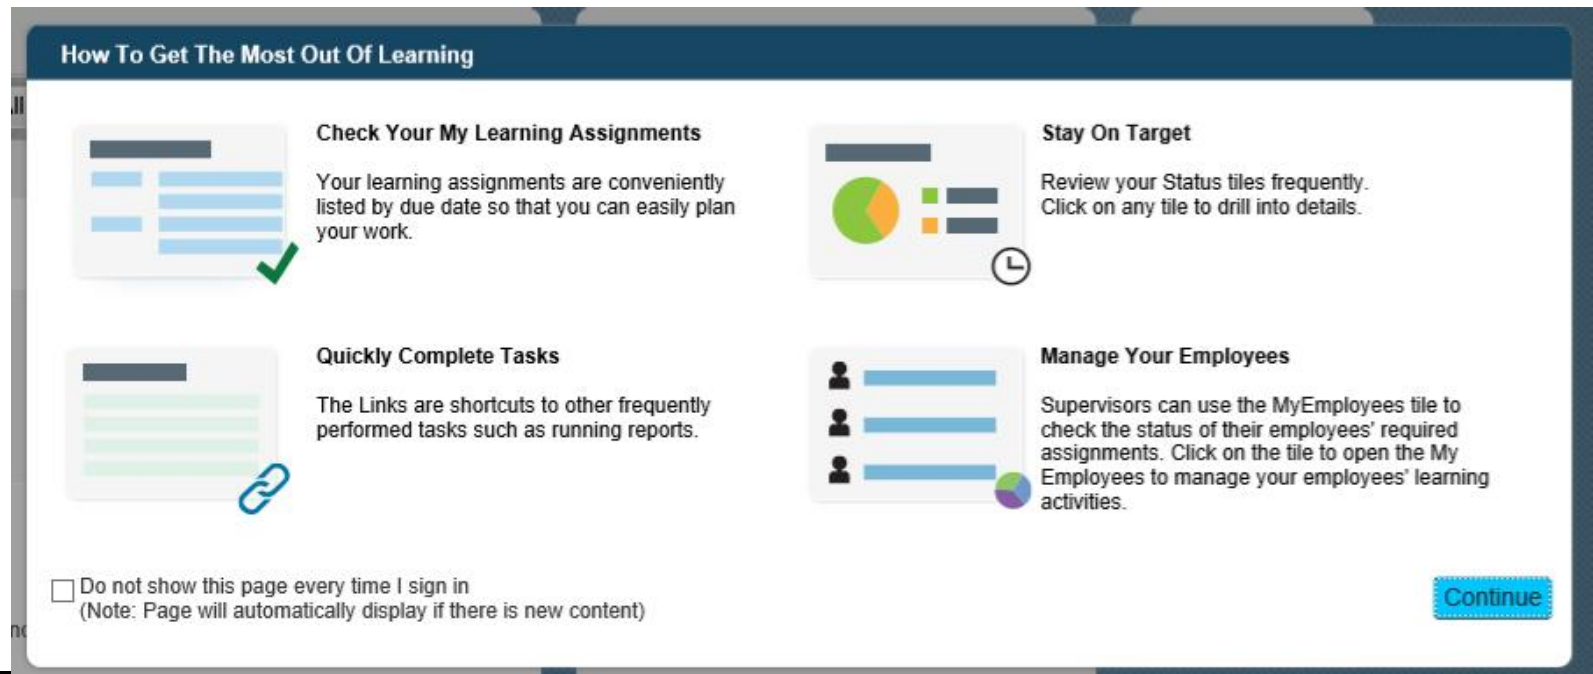

Fiori User Interface: Important notes

Customers using LMS branding that wish to keep the branding styles will need to update their css to use updated style sheet classes.

Theme with Fiori styling is “SF Fiori Style Blue Crystal Theme - Interior Pages”

New customers only:

News Popup is
universally available
to all new customers.

Fiori User Interface: Universal impacts

In order to support the Fiori style, some user interface structural components were upgraded. These structural changes will be visible for all customers. Examples include:

- Cover page tabs
- Localization popup for titles
- Some page layout, such as registration and task checklist
